BUILDING SPEED, POWER & PERFORMANCE FOR 30 YEARS

Dynatech
Competition Exhaust Systems

A-FAB, LLC

ABOUT A-FAB, LLC

A-FAB, LLC is a manufacturer of suspension, engine cooling, braking components and exhaust products for the automotive racing and high performance markets. A-FAB's combination of technical innovation, price and quality makes us the preferred choice of professional racers and car builders since 1983. Originally founded as a small, family owned business, we now distribute products throughout North America, Europe, Australia, and New Zealand.

A-FAB is committed to providing our customers the best service and highest quality parts as well as the most thorough and up-to-date technical assistance available anywhere.

BUILDING SPEED, POWER & PERFORMANCE FOR 30 YEARS

ABOUT OUR BRANDS

AFCO Racing Products is an engineering-based manufacturing company staffed by experienced professionals who are passionate about our industry. A simple need for a better suspension component 30 years ago has grown into a full service suspension, cooling and brake manufacturing and distribution company. Three decades of working closely with racers and tuners has yielded a team focused on delivering superior performance, quality, and value in every product we make.

Dynatech continues to be the exhaust leader in all forms of racing and high performance applications. Advances in racing, engineering, and design have automakers bringing a whole new breed of cars and trucks to the streets and tracks. This same excitement and new wave of technology is apparent at Dynatech. We continue to be focused on new products and award-winning designs.

PRO Shocks is a manufacturing company that has been building shocks, servicing our customers and delivering championships for over 30 years. The key to our success is attention to detail. Our shocks are carefully built to strict tolerances to ensure maximum value and performance. We back up our suspension components with talented sales, tech and customer service personnel to ensure you receive the product you want, the answers you need and the support you demand.

WHAT MAKES US DIFFERENT

UNMATCHED CUSTOMER SERVICE & TRAINING

Our team members are more than welders, machinists, and salespeople. We are racers and enthusiasts just like you. We understand the needs of our customers and we respond with outstanding technical support and customer service. Shock schools, chassis seminars, product training, fast and friendly returns and exchanges are all part of what you get when you purchase A-FAB products.

WORLD CLASS DESIGN & ENGINEERING

Winning products start with the best design and engineering people. Our engineering team is one of the most experienced in the industry. A-FAB products are known for reliability, performance, value, and innovation. We use a combination of vehicle data collection tools, virtual reality design software, extensive CAD modeling, finite element analysis testing, laboratory testing, along with extensive field trials and development before we ever release the first iteration of a new product. We believe in the "prove it to me method." That's why we spend countless hours on the road at the tracks with our customers testing and refining our products. With A-FAB, you can be sure our products will work as advertised every time!

MANUFACTURING EXCELLENCE

Automated production machines such as robotic welders, CNC benders, CNC lathes and mills, laser cutting equipment, alongside experienced, dedicated manufacturing personnel, give us the ability to produce the highest quality, most consistent products in our industry. All of our products undergo extensive quality control checks before making it to your door.

WINNING PRODUCTS

The A-FAB advantage is available in thousands of products for a wide range of applications. The common thread that ties all A-FAB products together is performance. A-FAB products are built to perform because we like to win! Manufacturing a second place product just doesn't interest us. Our unrelenting passion to be the best is the reason professional racers have relied on A-FAB products for over 30 years!
